Rev Moses Thatcher Pastor of the
Congl Ch. & Society in Northampton
" Tyler Statistics +

The Col Society the means of converting Africa!! — Col Society an adequate remedy for slavery in the U.S.A.!!! American common sense will never swallow down such enormities as these.

I think of going to Princeton to morrow. — Shall see Br Cowles —

yours truly
Sam Lee

P.S. Evening 9. o'Clock. Br. E.D. Moore has just been Lee (since writing the above) to see on mornings call & will accept — intends to have Dr Fitch & Thom preach the sermons — Ordination probably the first week in November —

implied in the action of a Doctor – the kind which influence the course men think I am bringing; & have thought of some agency, which would of force a kind of revolution & conviction at the same time execute. This premised I have objected if the cause of Anti Slavery does not need just such an Agent as myself to itinerate & preach on the subject." Thirsty Castle

Dr Phelps, I know that I am not connected to Anti Slavery principles. I am ready to stand in my pulpit, & sign the Lawson for my opinions. And in doing it I should act on the principle which I urged upon Dr Bicknell the other day – expecting to be successful. Why, the community have been fairly worked at the subject. The Col. Society has been held up before the public as worthy of support, & my body has assumed that it must be so of course. And if a word has been voice by way of hostility from its position, the props of Sect & it has stood. But the American public are not to be always to be satisfied with the authority of Sect names. The who & when for must be presented. And when they shall be brought to an attitude for the concise examination of these, the Col. Society will be hooted

Shelburne Sept 28. 1833

Dear Brother

I am pleased to hear from you otherwise with expecting my journey to Philadelphia. Within this time I expect two ordinations & at Newton & Natick the meeting of the Conference of Chh's (at Hopkinton — wish you would attend.) will Boston Recorder of this week

Perhaps I may go to Connecticut some two or three weeks previous to the meeting at Phil. & meet you there or at N. York. In the mean time shall probably see you at Boston.

You wishes that I would "take holed worms" mean antisipation. I am already what you wish me to be — I go for the whole. During the summer I have been able to read almost none, & have therefore thought I would defer attention to the subject until I should have the use of my eyes, & have laid aside all pamphlets on the subject. But the subject in one way or another has pressed itself upon my notice, & I have recently been thinking (not reading) & come to this fact. I am ready to do anything & every thing within my power in aid of the cause of Anti Slavery. How obviously the principles it opposes!

As evidence of my feelings I will show you a castle I have been building in the air viz. I am inclined to think that to regain my health I must abandon for a time that particular kind of mental & bodily
